TREES, PLANTS,
AND VINES

SPRING 1913
CATALOGUE

THIS IS OUR ONLY SALESMAN

In presenting this edition of our catalog we wish to extend thanks for past patronage and to assure our customers prompt and careful attention to all inquiries and orders they may favor us with.

THE CASH WITH ORDER WAY

Why Pay Agents Commissions?

You get trees so much cheaper from us because our way of dealing direct with the planter, and saving middlemen's expenses and commissions enables us to sell quality trees at almost half the price that the tree agents ask.

Why Pay Other People's Bad Debts?

HOW TO ORDER.—Please make out your order on detachable order sheet in back of catalog. Send payment with order. Procure a Money Order at your post-office or express office, or a draft at the nearest bank or send cash in a registered letter. Mail all to us in the enclosed self addressed envelope. Follow directions "HOW TO ORDER" on order sheet as closely as possible and make directions very plain as this will prevent any mistakes occurring. If directions are omitted we will forward according to our own judgment. Small orders will go cheaper by express, large orders by freight. Always state sizes desired.

ORDER EARLY, as our orders are shipped in the rotation they are received—First come first served. We cannot delay orders received first for orders coming later requiring immediate attention. If for any special reason it is necessary that an order be shipped on a specified date make a note on the order and we will comply with the request if possible. Our regular shipping season opens in the Spring about March 15th and in the Fall about October 1st.

PACKING.—We do not charge for packing, boxing or delivering to freight or express companies at Rochester. We do not prepay any charges, unless goods are to be delivered to a prepaid station, as all our prices and quotations are **Free On Board cars at our nurseries**. If you have no agent at your station and shipment has to be prepaid notify us and we will prepay and bill charges to you after shipment.

OUR TREES are Clean, Healthy, Hardy, and Thrifty. Finest grown. It is an established fact that in no other part of the country do fruit trees attain the perfection of those grown in Rochester and vicinity. Not one nurseryman in a thousand buds or grafts his own trees as we do. Our trees are grown and cared for by men who have been in our employ from 25 to 30 years. They know how and do turn out the finest fruit trees possible. Our stock is all first class of the different sizes as specified. We do not handle any second class trees **All poor trees or culls go into the brush heap.**

There never has been any San Jose Scale found in or near our nurseries. Our trees are inspected by state authorities every year and an official certificate of their freedom from diseases accompanies each shipment.

OUR GUARANTEE.—We exercise care to have our stock genuine and reliable, and hereby guarantee that if all, substantially all or any part of stock delivered, does not prove true to name as ordered, we will replace it free of charge, or refund the money paid for it, that being the measure of damages for a breach of the contract.

OUR RESPONSIBILITY.—See any commercial agency, banker or postmaster at Rochester. Our trees are sold by pleased customers recommending us to their friends. We cannot afford to give unsatisfactory service to our patrons. **IF WE PLEASE YOU TELL YOUR FRIENDS. IF NOT TELL US.**

RATES.—Less than ten of a variety always at single rates.

Over ten and less than 30 of the same variety at 10 rates. 10 rate will not be given on a lot of 10 or more composed of several varieties. The 10 must all be of the same variety.

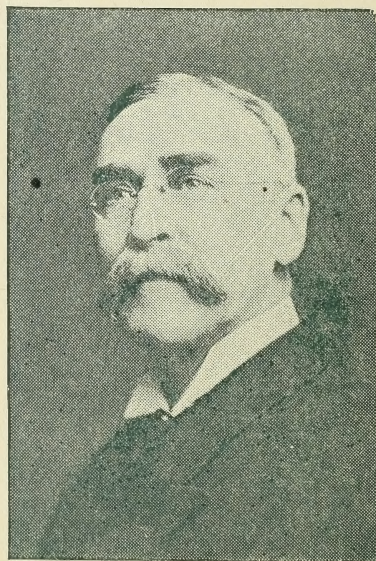

Over 30 and less than 300 of the same variety at 100 rates. 100 rate will not be given on a lot of 30 or more composed of several varieties. The 30 must all be of the same variety.

Over 300 of the same variety at 1,000 rates. 1,000 rate will not be given on a lot of 300 or more composed of several varieties. The 300 must all be of the same variety.

Where no 1,000 rate is given the 100 rate always governs.

EXAMPLE.—In an order of 5 Baldwin, 8 Northern Spy, 9 Ben Davis, 10 Fameuse, 20 Early Harvest, 40 Fall Pippin Apples, 200 Cuthbert, 200 Kansas Raspberry, and 400 Eldorado Blackberry, the 400 Eldorado would go at 1,000 rates, the 200 Cuthbert, the 200 Kansas and the 40 Fall Pippin would go at 100 rates, the 20 Early Harvest and 10 Fameuse would go at 10 rates and the 9 Ben Davis, 8 Northern Spy and 5 Baldwin would go at single rates.

COLLECTIONS.—We cannot make any changes in our collections for they are selected and bundled before our busy shipping season and the valuable time saved by doing this makes it possible for us to offer these collections at such a reduced price.

CHAS. A. GREEN, President and Founder

The Story of My Nursery Business

I MOVE BACK TO A FARM

I AM a farmer and a fruit grower—always have been—was born and brought up on a farm. Fruit growing has always been my hobby and pleasure, but, like a great many other young men who live in the country, I did not appreciate the advantages that country life offers and moved to the city.

In 1877 I left my bank in Rochester and went twelve miles outside the city to a farm on which I intended to raise fruit.

The first year on this farm I planted and budded about a thousand seedlings (trees from seed). The trees grew well and I planted acres into orchards.

I had a few trees extra. These I sold to my neighbors. My neighbors' trees grew well. They then came to me and said: "We like your trees. They are fine trees and we paid only twenty-five cents each for them. Agents charge us one dollar or more. Will you have more next season?"

THE IDEA THAT BROUGHT RESULTS

This question set me to thinking. Then the idea came to me: Grow the best trees possible. Get them into the hands of the people by selling direct on a cash with order basis. Cut out the agent or salesman. Use a catalog.

BIRTH OF MAIL ORDER NURSERY

I began right then to work out this idea. The success of this plan you well know. Many other nurseries which sold nursery stock by agents now sell with agents and catalog also.

But I have never had an agent in my business and never will. I believe that the saving which my catalog business brings should go into your pocket.

BUSINESS GROWS, MOVES TO ROCHESTER

In the year 1890 my business had grown to such an extent that I found it advisable to move my main office to Rochester, N. Y. I located near Highland Park in Rochester, and built a large main office and packing house. My business grew and I found it necessary to buy more land. I now have nurseries in Clifton, Coldwater and Riga, all within fourteen miles of Rochester. I also built many new buildings and an office at Clifton.

I believe I was the first nurseryman to sell trees direct by catalog only. I have done business so many years by this direct method that I wish to say to you that my organization knows every phase of the mail order nursery business. You may have great confidence in my organization to get good trees to you in perfect condition.

MEN WITH ME FOR YEARS

Many of my men who have been in my organization for years have sons who have worked in my nurseries ten to fifteen years. These young men have learned the nursery business from childhood and are experts in their special departments.

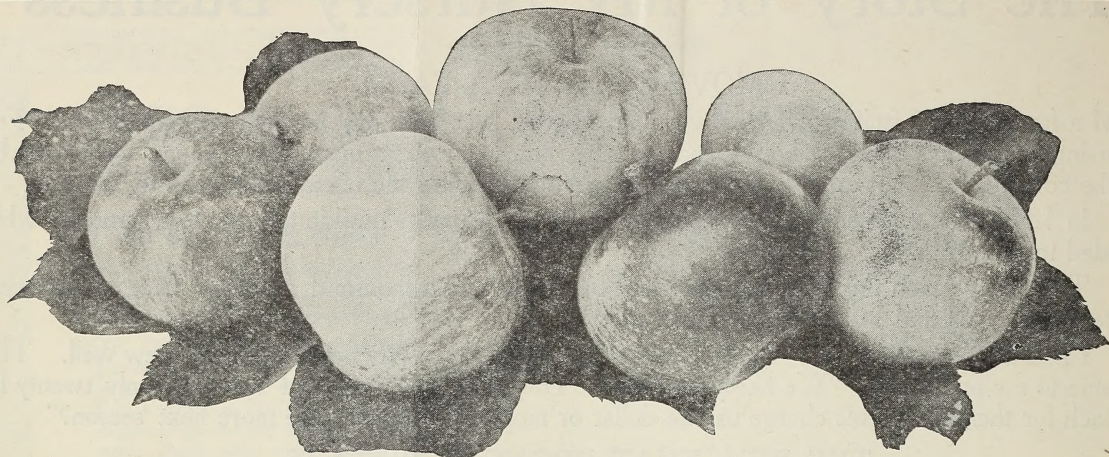

HOW I GAINED THE CONFIDENCE OF THE PEOPLE

To establish a business of this kind it was necessary to gain the absolute confidence of the general public. This could be done only by satisfying every customer or giving "fair play and half the road," and sometimes more than "half the road."

But this rule has always been strictly adhered to, as it is this more than anything else that made it possible for me to establish "the largest mail order nursery in the world."

Absolute responsibility and honesty, highest quality trees, most reasonable prices, trees true to name, satisfaction to customers, are the corner stones of my business.

CHAS. A. GREEN.

APPLE TREES

Prices of General Varieties—Not Starred (*)

	Each	10	100
First Class Largest or Extra Size	\$0.35	\$3.00	\$25.00
First Class Medium or Orchard Size	.30	2.50	20.00
First Class Smaller Size, Branched	.25	1.75	15.00

Prices of Starred (*) Varieties

	Each	10	100
First Class Largest or Extra Size	\$0.40	\$3.50	\$30.00
First Class Medium or Orchard Size	.35	3.00	25.00
First Class Smaller Size, Branched	.25	2.00	17.50

Chas. A. Green's List of Select Varieties

I consider the following varieties the best for commercial orchard planting and I urge those setting out commercial orchards to confine their selections to this list. These varieties are also very desirable for garden planting.

C. A. GREEN.

GREENING; (RHODE ISLAND GREENING)—

This apple has a recognized standing, both in domestic and foreign markets and sells readily for good prices. It is regarded as the very best cooking apple grown and also excellent for dessert use. Size large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, sprightly subacid, very good. Skin grass green to yellow, sometimes with brownish red blush. Tree large, strong, vigorous, wide spreading. Season Dec. to April.

WEALTHY—This variety is particularly valuable for cold climates because the tree is very hardy and the fruit sells well and good in quality for either dessert or culinary uses. It is gaining in popularity each year on account of its beauty and quality. Fruit large, fine, crisp, tender, very juicy, agreeably subacid. Skin pale yellow blushed and marked with narrow stripes and splashes of red, deepening to brilliant red. Prevailing effect "bright red." Tree medium, upright, spreading, thrifty grower. Season Oct. to Jan.

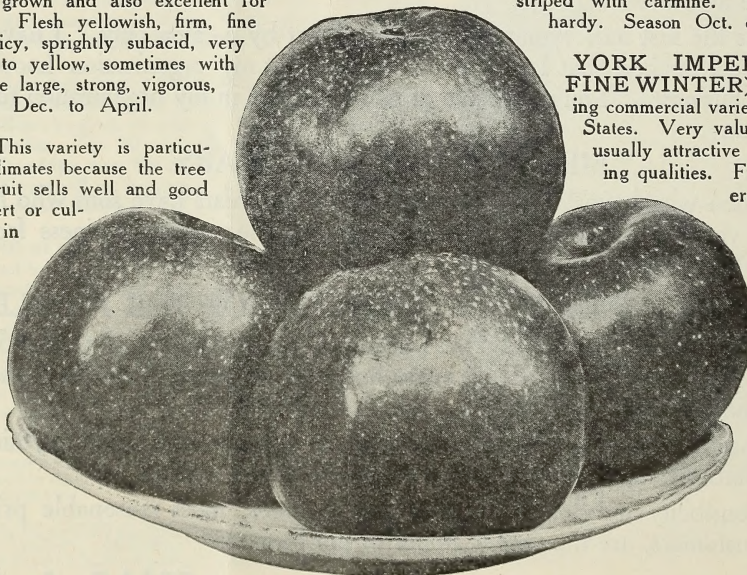

WAGENER—This variety is desirable for

culinary uses, but is equally good for dessert. Its dwarfish habit and early bearing qualities recommend it as a filler. Fruit large, firm, crisp, tender, very juicy, subacid. Skin bright pinkish red, striped with carmine. Tree large, vigorous and hardy. Season Oct. or Nov. to Feb. or later.

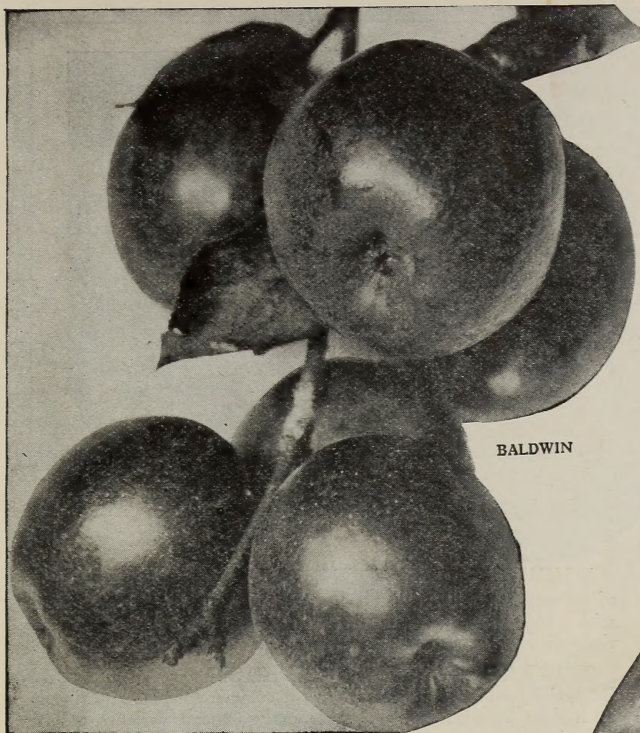

YORK IMPERIAL (JOHNSON'S FINE WINTER)—

This is one of the leading commercial varieties of the Middle Atlantic States. Very valuable on account of its unusually attractive appearance and fine keeping qualities. Fruit large, firm, crisp, moderately juicy, mild subacid or nearly sweet. Skin green or yellow, covered with light red and striped with carmine. Tree vigorous and hardy. Season Jan. to April or May.

STARK—This is an unusually hardy variety and is well liked for baking and evaporating. Fruit large, firm, tender, juicy, mild, subacid. Skin yellow mottled and striped with red. Tree large, vigorous and very hardy. Season Jan. to May or June.

RHODE ISLAND GREENING

BALDWIN

* **BALDWIN**—Without question, the leading commercial variety in New England, New York, Ontario, Ohio, Michigan and in many sections from Colorado to Washington. You are taking absolutely no chances when investing your money in this variety. Absolutely dependable. Fruit large, firm, moderately coarse, crisp, rather tender, very juicy, agreeably subacid. Skin yellow or greenish, blushed, mottled and striped with bright red and deep carmine. Prevailing effect is bright red. Tree large, very vigorous, strong and hardy. Season Nov. to May.

WINTER BANANA—A magnificent dessert apple, which on account of its attractive appearance and fine quality commands a ready sale and higher prices than most apples. Packed in boxes for the fancy trade it is in ready demand. The fruit is large and keeps all winter. Flesh whitish tinged with pale yellow, firm, crisp, tender, subacid. Skin clear pale yellow with beautiful pinkish red blush. Tree vigorous and hardy. Season Dec. to April.

This apple sold last winter in Liverpool at \$4.50 per 40 lb. box when other standard apples sold at \$4.70 per 150 lb. bbl. This apple bears every year after two years planted.

* **GREEN'S IMPROVED BALDWIN**—Brighter and better in quality than ordinary Baldwin. Tree more vigorous grower. Discovered by C. A. Green.

Not Enough Apples Grown

The figures of the Department of Agriculture on apple production since 1897 are as follows:

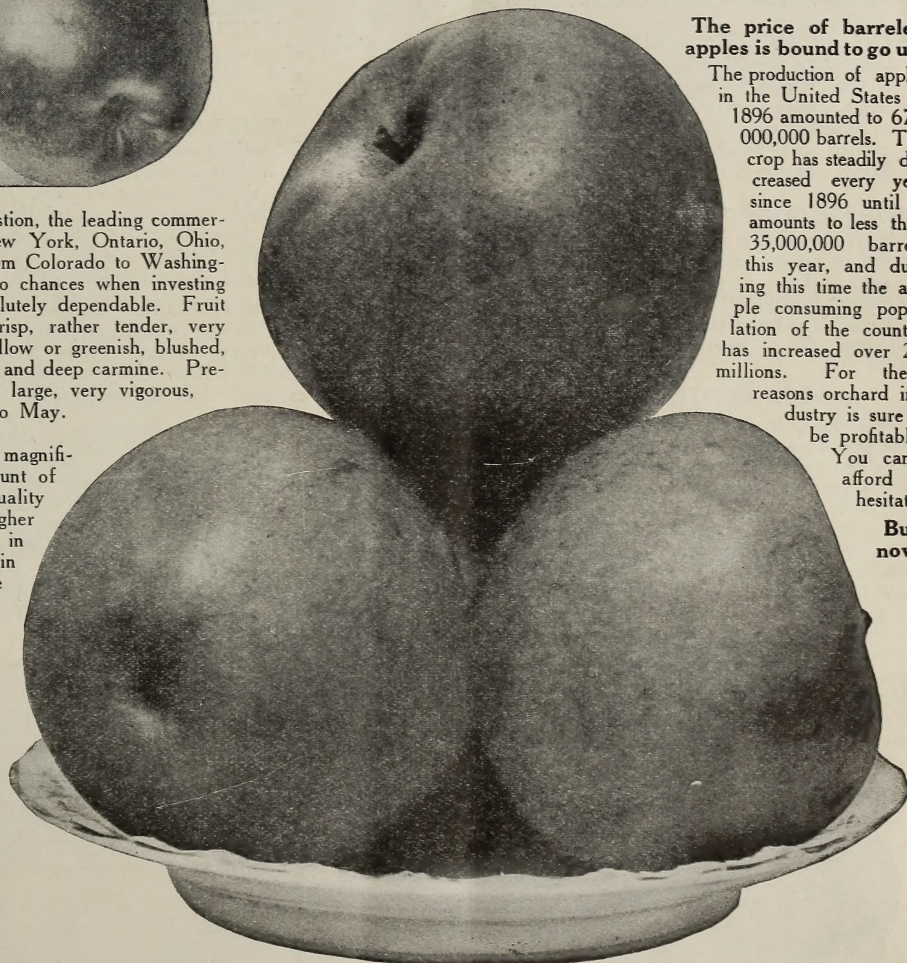

Year	Total Crop Barrels	Market Demand Barrels	Deficiency Barrels
1897	42,000,000	50,000,000	8,000,000
1898	22,500,000	50,000,000	27,500,000
1899	38,500,000	50,000,000	12,000,000
1900	47,500,000	52,000,000	4,500,000
1901	27,500,000	52,000,000	24,500,000
1902	45,000,000	53,000,000	8,000,000
1903	44,000,000	53,000,000	9,000,000
1904	44,000,000	53,000,000	9,000,000
1905	24,000,000	53,000,000	29,000,000
1906	35,500,000	54,000,000	18,500,000
1907	25,000,000	54,000,000	29,000,000
1908	24,500,000	55,000,000	30,500,000

It will be seen from these figures that in the last 12 years there has been only one, 1900, when the supply of apples approached the demand, that the average deficiency of supply under the normal demand for apples in the United States has been almost 17,500,000 barrels. Indications are that the supply will continue to shrink. The passage of the national pure food law has increased the demand for apples for making vinegar some 3,000,000 barrels, as sulphuric acid and water can no longer masquerade as "cider vinegar." The export demand has been greatly increased and it is predicted that inside ten years Europe will be using annually 10,000,000 boxes, equivalent to 4,000,000 barrels, of American apples.

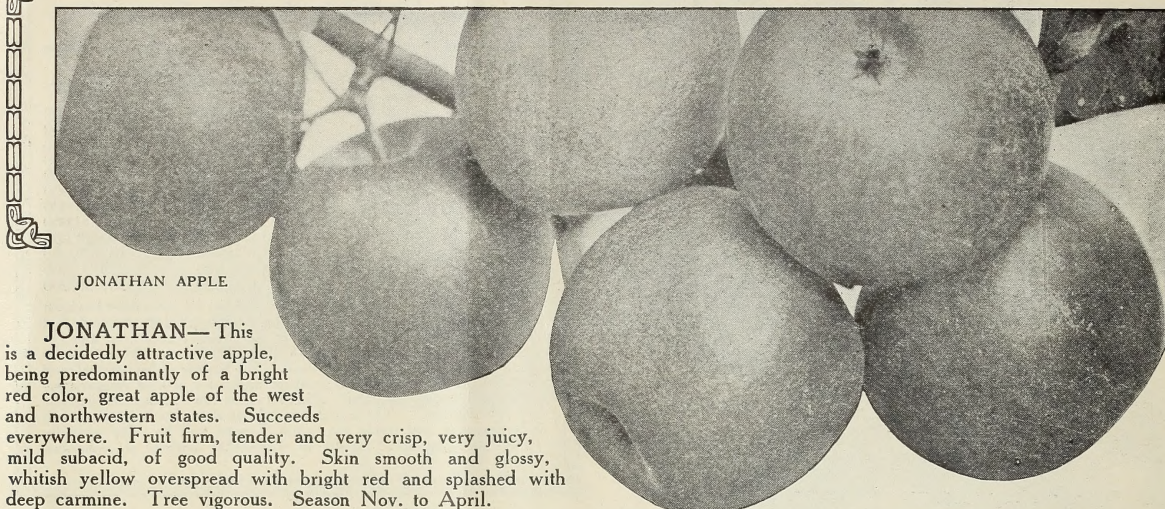

The price of barreled apples is bound to go up.

The production of apples in the United States in 1896 amounted to 67,000,000 barrels. The crop has steadily decreased every year since 1896 until it amounts to less than 35,000,000 barrels this year, and during this time the apple consuming population of the country has increased over 20 millions. For these reasons orchard industry is sure to be profitable. You can't afford to hesitate.

Buy now.

WINTER BANANA

JONATHAN APPLE

JONATHAN—This is a decidedly attractive apple, being predominantly of a bright red color, great apple of the west and northwestern states. Succeeds everywhere. Fruit firm, tender and very crisp, very juicy, mild subacid, of good quality. Skin smooth and glossy, whitish yellow overspread with bright red and splashed with deep carmine. Tree vigorous. Season Nov. to April.

KING (TOMPKINS KING)—Its size and beautiful red color make it well adapted for marketing in fancy packages and it usually sells at an advance over general varieties. Fruit very large, rather coarse, crisp, tender, juicy, subacid. Skin fine yellow, mottled and washed with orange red and lively bright red, striped and splashed with bright carmine. Tree vigorous and hardy. Season Oct. to Jan. or later.

NORTHERN SPY—This variety ranks next to Baldwin and R. I. Greening in importance. It is a fine apple for culinary uses and its exceptionally fine flavor makes it invaluable as a dessert apple. Fruit very large, rather firm, very tender, crisp, very juicy, subacid. Skin pale yellow, nearly concealed with bright pinkish red and mottled with carmine. Tree large vigorous and hardy. Season Nov. to April.

A GOOD REPUTATION

This is what Chas. A. Green has been working for the past thirty years. When he started this business he found difficulty in selling his trees but as soon as people found that his trees were **TRUE TO NAME** he could hardly grow enough to supply the demand. We are compelled each year to increase our capacity, our force of laborers and packers to keep pace with our increasing business. "We have heard from our friends that you are fair and reliable and we want your trees because they prove **TRUE TO NAME**."

DUCHESS OF OLDENBURG—Very valuable because of its great hardiness. Fruit large, firm, crisp, tender, juicy, subacid. Skin pale yellow, striped with red. Tree medium size, vigorous and hardy. Season late Aug. and Sept.

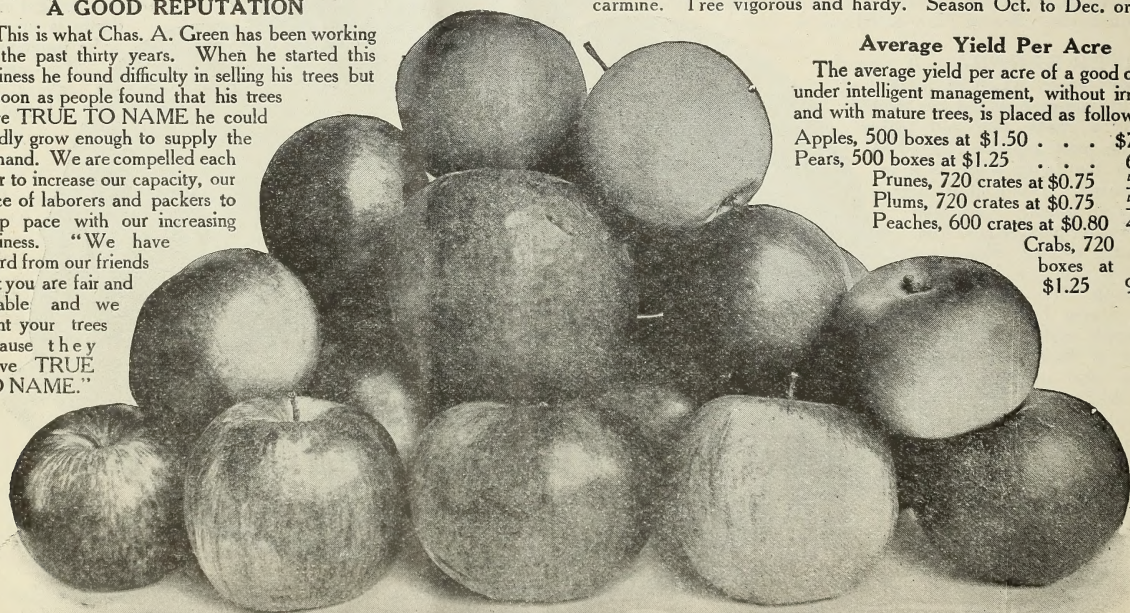

HUBBARDSTON NONESUCH (AMERICAN BLUSH)—An excellent variety for commercial planting, ripening as it does between the perishable early autumn varieties and the late ripening winter varieties, thus making it one of the most profitable of its season. Fruit large, firm, fine grained, tender, crisp, juicy, aromatic. Skin yellow blushed, mottled with red. Prevailing effect "attractive red mingled with more or less yellow." Tree large and vigorous. Season Oct. to Jan.

* **McINTOSH RED**—One of the best dessert apples. The flesh is very tender, perfumed and delicious. Fruit large, firm, fine, crisp, tender, very juicy, perfumed, slightly subacid. Skin whitish yellow almost completely covered with bright red and carmine. Tree vigorous and hardy. Season Oct. to Dec. or later.

Average Yield Per Acre

The average yield per acre of a good orchard under intelligent management, without irrigation and with mature trees, is placed as follows:

Apples, 500 boxes at \$1.50 . . .	\$750.00
Pears, 500 boxes at \$1.25 . . .	625.00
Prunes, 720 crates at \$0.75	540.00
Plums, 720 crates at \$0.75	540.00
Peaches, 600 crates at \$0.80	480.00
Crabs, 720 boxes at \$1.25	900.00

List of General Varieties

In a great many sections of the country you will find some of the following varieties rated as very fine commercial sorts and for those sections I can highly recommend them as a commercial apple. You will find in this list a great many varieties, while they are not as good for commercial uses, are superior in quality and better for home or garden planting and for growing for a local market.

C. A. GREEN.

ALEXANDER—An excellent apple for culinary use. Fruit large, firm, crisp, tender, juicy, mild subacid. Skin smooth, glossy, pale yellow to "orange yellow" entirely overspread with lively red stripes. Tree large, vigorous and hardy. Season September to November.

BEN DAVIS—It is unquestionably the leading commercial sort and the most popular apple grown south of the Baldwin region. Fruit above medium to large. Form roundish. Flesh whitish, slightly tinged with yellow, firm, somewhat aromatic, juicy, mildly subacid, good. Skin tough, bright, smooth and glossy, clear, yellow, mottled and washed with bright red, striped and splashed with bright red carmine. Prevailing effect, red striped. Tree medium size, forming strong wood which seldom breaks under heavy crops. Season January to June.

BLENHEIM PIPPIN (BLENHEIM ORANGE OR LORD NELSON)—An excellent variety both for dessert and culinary uses. Fruit very large, firm, moderately juicy, crisp, mild subacid. Skin deep yellow overspread with bright yellow. Tree large, vigorous and hardy. Season Oct. to midwinter.

* DELICIOUS RED—

This is a medium to large sized apple, roundish in shape, skin yellow almost covered with dark brilliant red. The tree is a strong, upright grower, very hardy and a heavy bearer. Fruit hangs well, keeps well, bruises dry up instead of rotting.

GRIMES GOLDEN—

Attractive in form and excellent either for dessert or culinary use.

Fruit large,

firm, tender, crisp, juicy, rich, aromatic, subacid. Skin clear deep yellow with scattering pale yellow or russet dots. Tree vigorous. Season Nov. to Feb.

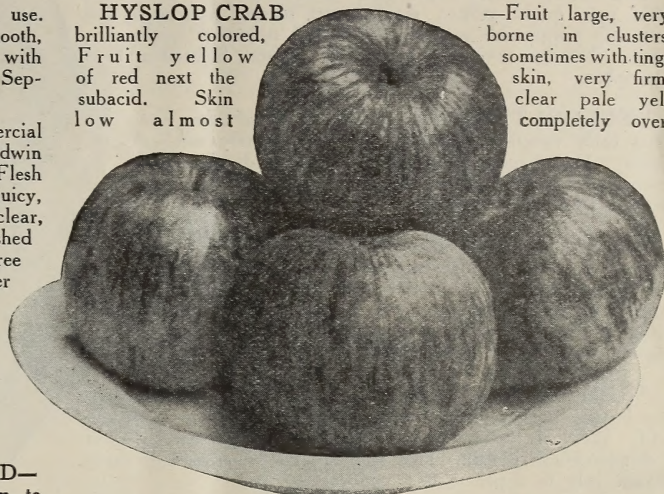

*** GRAVENSTEIN**—Orange yellow with stripes of light and dark red; tender, juicy, aromatic, subacid. Good size and attractive appearance. Late Sept. to early Nov.

SWEET BOUGH—This is a universal favorite for the "home orchard." Fruit large, moderately firm, crisp, tender, juicy, sweet. Skin smooth, pale greenish yellow, sometimes blushed. Tree vigorous, long lived. Season August to early September.

HYSLOP CRAB

brilliantly colored, Fruit yellow of red next the subacid. Skin low almost

—Fruit large, very borne in clusters, sometimes with tinge skin, very firm, clear pale yellow completely over-

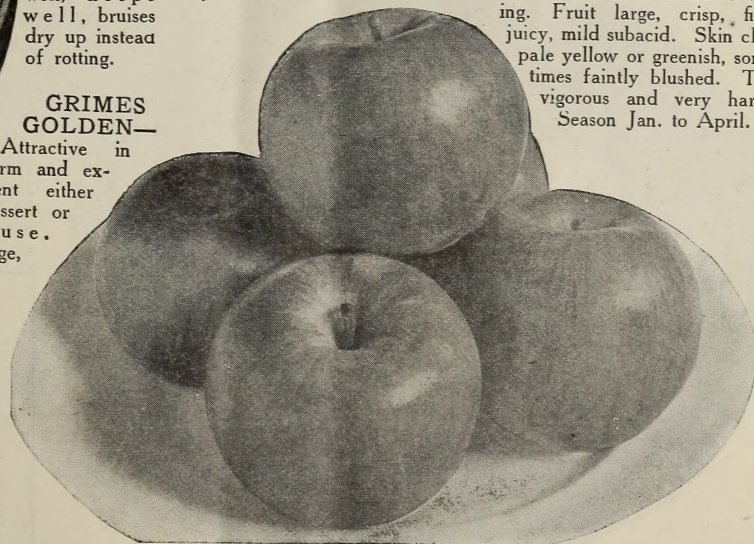

MCINTOSH RED

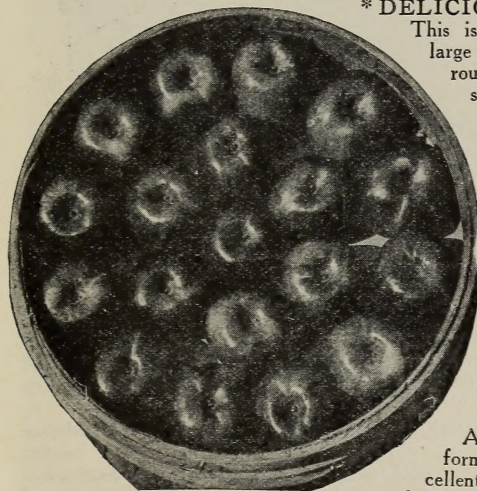

spread with lively dark red, shading to deep carmine, covered with thick blue bloom. Tree vigorous, hardy and a reliable cropper. Season late September and October.

MAIDEN'S BLUSH—A very beautiful apple, valued especially for market and culinary uses. It makes very white evaporated stock. Fruit large, moderately crisp, tender, very juicy, subacid. Skin pale waxen yellow with crimson blush. Tree medium size, vigorous and hardy. Season Sept. to Nov. or Dec.

NORTHWESTERN GREENING—A very hardy variety. Desirable for localities too severe for Rhode Island Greening. Fruit large, crisp, firm, juicy, mild subacid. Skin clear pale yellow or greenish, sometimes faintly blushed. Tree vigorous and very hardy. Season Jan. to April.

NORTHERN SPY

YORK IMPERIAL

TRANSCENDENT CRAB—This beautiful fruit has for many years been one of the most popular of the Crab Apples. Fruit medium to rather large, roundish to roundish oblong. Flesh yellow, crisp, juicy, subacid, very good for culinary use. Skin thin, clear, bright yellow with bright red cheek overspread with bloom. Highly colored specimens are nearly covered with bright red. Tree is a good grower, hardy and usually very productive, yielding good to very heavy crops annually. Season late August to the middle of September.

WOLF RIVER—Fruit large, firm, tender, juicy, subacid. Skin pale bright yellow, mottled and blushed with bright deep red with conspicuous splashes and broad stripes of bright carmine. Tree large, vigorous and hardy. Season September to December.

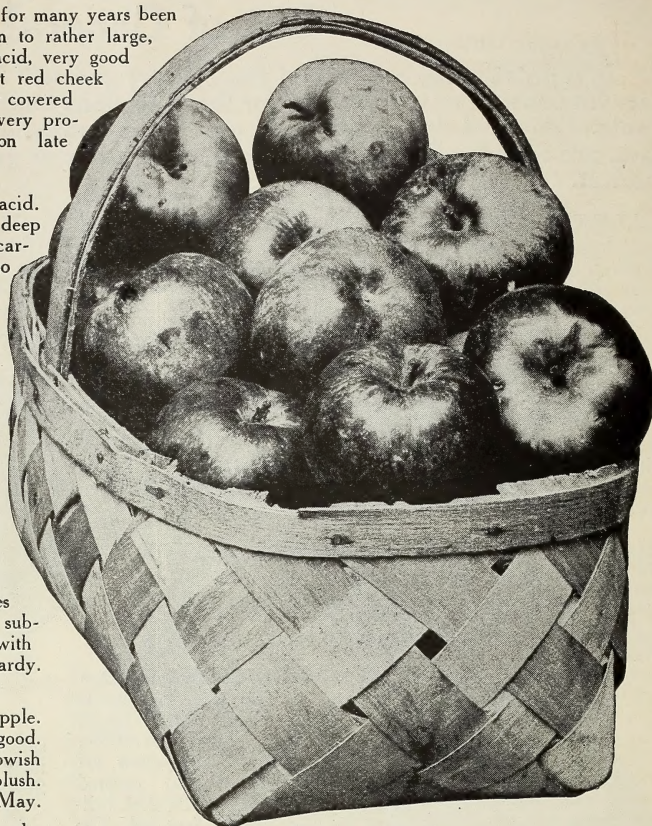

YELLOW TRANSPARENT—One of the best extra early varieties. Excellent for both culinary use and dessert. Fruit large, crisp, tender, juicy, subacid. Skin yellowish white. Tree medium size, vigorous and hardy. Season late July and August.

POUND SWEET (PUMPKIN SWEET)—By many it is considered the best sweet variety of its season, for baking, canning or stewing with quinces. Fruit very large, crisp, decidedly sweet with a peculiar flavor. Skin clear yellow marbled with greenish-yellow. Tree large, vigorous and hardy. Season Oct. to Jan.

*** RED ASTRACHAN**—A reliable cropper that comes into bearing young. Fruit medium size, crisp, tender, juicy, subacid. Skin pale yellow striped with deep crimson, covered with a distinct bluish bloom. Tree medium size, vigorous and hardy. Season July to Sept.

ROXBURY RUSSET—The most popular russet apple. Fruit large, firm, moderately tender, juicy, sprightly, subacid, good. Skin almost smooth but usually covered with greenish to yellowish brown russet. Highly colored specimens develop a bronze blush. Tree medium to large, vigorous and hardy. Season Dec. to May.

*** ROME BEAUTY**—A very fine market variety for the northern and western states. Fruit very large, skin yellow, mottled with bright red; in highly colored specimens almost solid red on exposed cheek, striped with bright carmine. Flesh crisp, juicy, agreeable, mild, subacid. Season November to April or May.

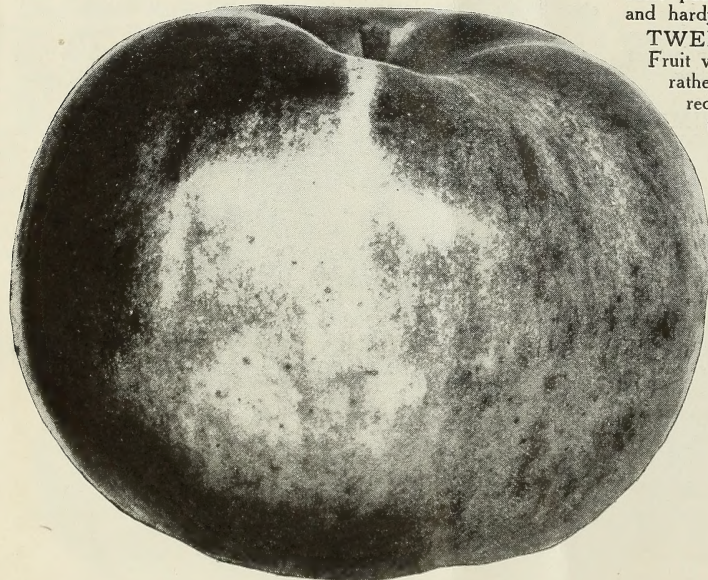

MCINTOSH RED

TOLMAN SWEET—An attractive yellow sweet apple, much esteemed for culinary purposes as pickling, boiling and baking. Fruit medium size, moderately juicy and decidedly sweet. Skin color pale yellow, sometimes blushed. Tree vigorous, long lived and hardy. Season Nov. to April.

TWENTY OUNCE—It is highly esteemed for home use. Fruit very large, coarse, tender, juicy, subacid. Skin becoming rather yellow, mottled and splashed with bright red on dark red with carmine stripes. Tree vigorous. Season late September to early winter.

WALBRIDGE—Attractive, good for culinary purposes. Fruit medium size, firm, crisp, tender, juicy, mild subacid, slightly aromatic. Skin clear pale yellow, washed with red, mottled and striped with bright carmine. Tree vigorous. Season November to May.

CAPITAL AND SURPLUS \$1,000,000

The Traders National Bank
Rochester, N. Y.

To whom it may concern:

November 19, 1907.

I take great pleasure in saying that I consider Green's Nursery Company entirely reliable, a house of many years' standing, and with undoubted business integrity and honesty. I believe any merchandise purchased from them will be found strictly according to contract, and true to name.

We have known the officers for many years past, and our business relations have been entirely satisfactory. The company has ample capital for the business done and we take pleasure in most heartily recommending them to anyone desiring to purchase trees, shrubbery or other nursery stock.

Very truly yours,

HENRY C. BREWSTER, President.

Additional Varieties

SPITZENBURG (Esopus)—A well known variety of the Baldwin class; handsome red. Medium to large. Crisp, juicy, tender, subacid. November to February.

SUTTON BEAUTY (Seedling of Hubbardston)—Attractive bright red, fine, tender, juicy, mild subacid; medium to large. November to March.

WILLOW TWIG—Southern variety. Hardy, long keeping red apple. Large to medium. Crisp, juicy, subacid. January to May.

YELLOW BELLFLOWER—A decidedly attractive yellow apple. Very good for both culinary uses and dessert. Season December to April.

SENATOR ("Oliver's Red")—An attractive dark red apple of good size and quality, fine crisp, tender, juicy, subacid, approaching sweet. December to April.

PEWAUKEE—Bright yellow, striped and splashed with dark red, specially desirable for cold climates. Tree vigorous and hardy. Season November to April.

WISMER'S DESSERT—Of Canadian origin. Skin yellow shaded and striped with bright red.

ARKANSAS BEAUTY—Above medium, attractive, blushed with pinkish red and stripes of carmine, juicy, mild subacid, good.

BAXTER—A large red apple, attractive in appearance, subacid. November to January.

BAYARD—An excellent red apple. Strong bearer, size medium. Season January to June.

"BEN HUR"—A cross between Ben Davis and Rome Beauty. Brilliant red, juicy and highly flavored. Hardy, medium to large. Season same as Ben Davis.

BISMARCK—A very desirable apple for kitchen and market purposes. Yellow overspread with dull pinkish red. Tree dwarfish, hardy. Season October to early winter.

BLACK BEN DAVIS—This is a variety of the Ben Davis type, above medium to large; dark purplish red, juicy, mild subacid. Season January to May.

CANADA RED—Large, attractive, bright red, juicy, subacid. Season November to March.

Green's Apple Collection No. 2

All first size selected 2 year trees, 6 feet or more high. Price elsewhere, \$4.40. Our Special Price, \$3.75. (Note several of these are the rare high priced varieties.)

- 1 American Blush
- 3 Banana
- 1 Delicious Red
- 2 Green's Baldwin
- 1 McIntosh
- 1 Northern Spy (or King)
- 1 Wagener
- 1 R. I. Greening
- 1 C. A. Green's Selection

* **WINESAP**—A well known popular dark red variety of medium size, firm, crisp, juicy, subacid. January to June.

CAROLINA RED JUNE—An attractive little apple, deep red over yellow, tender, brisk, subacid. Late July to early winter.

CHENANGO STRAWBERRY (SHERWOOD'S FAVORITE)—Beautiful in appearance, yellowish white, striped with red, excellent for dessert and culinary purposes. Large tender, subacid. August, September.

* **FAMEUSE**—The most desirable dessert apple of its season. Bright red, deepening to almost purplish black in highly colored specimens. Season October to midwinter.

FANNY—A very good dessert apple, resembling the Fameuse. Skin clear yellow mostly overlaid with bright red, indistinctly striped with carmine. Season September to November or later.

GANO—Variety of the Ben Davis type, medium to large; yellow mottled and blushed with red, firm tender, subacid. December to May.

GILLIFLOWER—A dessert apple. Dark red, medium size, tender and juicy, subacid. October to February.

GOLDEN SWEET—Attractive clear yellow, rich, sweet, good in flavor and quality. Medium to large. Mid-August to late September.

NORTH STAR—A hardy "Yellow and Red" variety, large size, firm, crisp, tender and juicy, subacid, excellent. September and October.

ONTARIO—A cross between Northern Spy and Wagener. Fruit large, bright pinkish red, crisp, tender, juicy, subacid. More productive than Northern Spy. November to April.

* **NEWTOWN PIPPIN**—A yellow apple of the highest quality for dessert or culinary use. February to May.

PARAGON—Southern variety of the Winesap type. Above medium. Yellowish covered with dark red, tender, juicy, subacid. January to May.

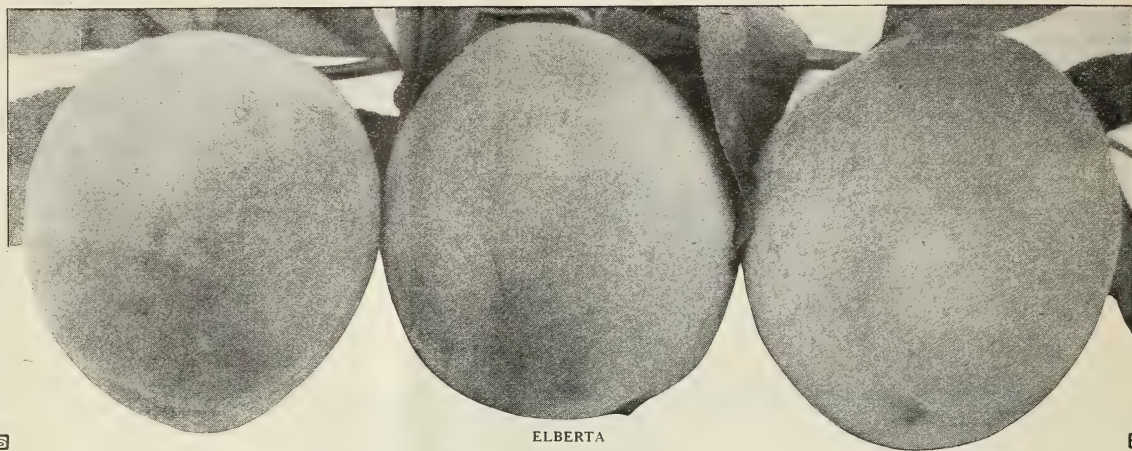

* **STAYMAN'S WINESAP** (Originated from a seed of the Winesap)—Medium to large; yellow covered with red, fine grained, tender, juicy, subacid. December to May.

Green's Apple Collection No. 1

All extra large grade. None better in the world. All selected 2 year trees, 6 ft. or more high.

- 1 Banana
- 1 Black Ben Davis
- 1 Delicious Red
- 1 Green's Baldwin
- 1 Pound Sweet
- 1 "Green's Selection"

This is C. A. Green's selection of rare apples which will delight all who see them in fruit, all who eat them. Value elsewhere \$2.50. Green's price, 6 trees for \$1.75.

ELBERTA

PEACH TREES

Price of All Standard Peach Trees Except Niagara

	Each	10	100
First Class Largest or Extra Size	\$0.25	\$2.00	\$15.00
First Class Medium or Orchard Size	.20	1.75	12.00
First Class Smaller Size, Branched	.18	1.50	10.00

Price of Niagara Peach Trees

	Each	10	100
First Class Largest or Extra Size	\$0.30	\$2.50	\$17.50
First Class Medium or Orchard Size	.25	2.00	15.00
First Class Smaller Size, Branched	.20	1.50	12.00

ELBERTA PEACH—Unsurpassed as a valuable, large, beautiful peach of good quality. The best orchard variety. Valuable for planting in garden. Elberta is hardier in bud than many varieties, therefore a uniform cropper. Elberta is large, yellow, with red cheek, juicy and high flavored, flesh yellow, freestone. Season medium early, following quickly upon Early Crawford.

The best authority on peaches in the United States, planted 60,000 Elberta. Why? Because he well knew its value. This most excellent variety will be called for by the thousand.

Orders should be sent in early while our stock is large.

CRAWFORD'S EARLY—A magnificent large yellow peach of good quality. Tree vigorous and prolific. Its size, beauty and productiveness make it one of the most popular varieties. Season, beginning of September. Freestone.

CROSBY FROST-PROOF PEACH—A fine, handsome yellow peach with remarkably small pit, that bears regular crops north of the peach belt. Quality delicious. Season follows quickly after Early Crawford. Freestone.

FITZGERALD—Ripens between Early and Late Crawford. Flesh rich, deep golden yellow. The tree commences bearing young, is productive, and in Canada and Michigan has proved one of the hardiest. Freestone.

CRAWFORD'S LATE—A superb yellow peach, very large, productive, and good. Ripens here about the close of the peach season. Freestone.

EARLY RIVERS—Large, creamy white, with pink cheek, juicy and melting. August. Clingstone.

OLD MIXON FREE—Large, yellowish-white, with deep red cheek, tender and juicy, very hardy and productive. Middle September.

BEER'S SMOCK—Fruit medium to large; light orange-yellow, red cheek; rich and juicy. Freestone.

CHAIR'S CHOICE—Deep yellow, red cheek, firm; a few days earlier than Smock. September. Freestone.

HILL'S CHILI—Fruit medium size, oblong. Skin yellow shaded with dark red. Flesh yellow, very rich and sweet. Freestone.

CARMAN—Large, oblong, pale yellow with deep blush; skin very tough. Tender, juicy and fine flavor; very hardy, and heavy cropper. August. Freestone.

GOLDEN DROP—Large, good quality, hardy, profitable market sort. Follows Crawford's Late. Freestone.

SNEED—Medium, creamy-white, with light blush cheek, good quality, very early. July. Clingstone.

AN UNSOLICITED TESTIMONIAL.—The following testimonial was received from one of our patrons who wanted to purchase from us large quantities of certain varieties of trees. But we could not let him have all he wanted without depriving some of our other customers:

Green's Nursery Co., Rochester, N. Y.

Gentlemen: I have had such success with all your goods that I am willing to pay you considerably more than your catalog prices, if you will agree to furnish me with all the trees I want. The Pennsylvania State Orchard Inspectors compliment me upon the splendid condition of these trees I bought from you in the spring of 1910. You can see that I want to pay you all that is fair and more, but I want your trees before anything else.

Yours very truly,

HERMANN HAASE.

133 Lafayette St., Brooklyn, N. Y., Aug. 25, 1911.

PEACH TREES (continued)

ELEVEN REASONS

Why You Should Buy Green's Trees

- Green's Trees are hardy, north-grown and full of life.
- Green's Trees are Quality Trees, straight, smooth, well-formed and true to name.
- Green's Trees will thrive and produce fine fruit in every section of the United States.
- Green's Trees are triple inspected—only the good trees go to you—read our guarantee.
- Green's Trees are well packed in paper lined boxes, which must be used to keep roots from drying in warm weather and from freezing in cold weather.
- Green's Trees have perfect root systems due to whole root grafting and budding, much cultivating and proper digging.
- Green's Trees are only of the Standard Varieties for home use and orchard planting.
- Green's Trees are grown on the land best suited to their needs. For this reason we have three nurseries, each having different kinds of soil.
- Green was the first nurseryman to sell quality trees by catalog only (no tree agents or canvassers). He knows how to grow and sell you quality trees and save you money.
- Green saves you agents' profits and expenses, or nearly half your money, by buying direct from his nursery.
- Green has a national reputation for fair dealing.

YELLOW ST. JOHN—

Large, yellow, with deep red cheek, flesh yellow, sweet, juicy, very good, bears quite young. Ripens before Early Crawford. Freestone.

CHAMPION—Fruit large, sweet, rich and juicy. Skin creamy white, with red cheek; freestone and a good shipper. Ripens early. Hardy and productive.

GREENSBORO—A good, very early, white-fleshed, red-cheeked peach, hardy and productive. Clingstone.

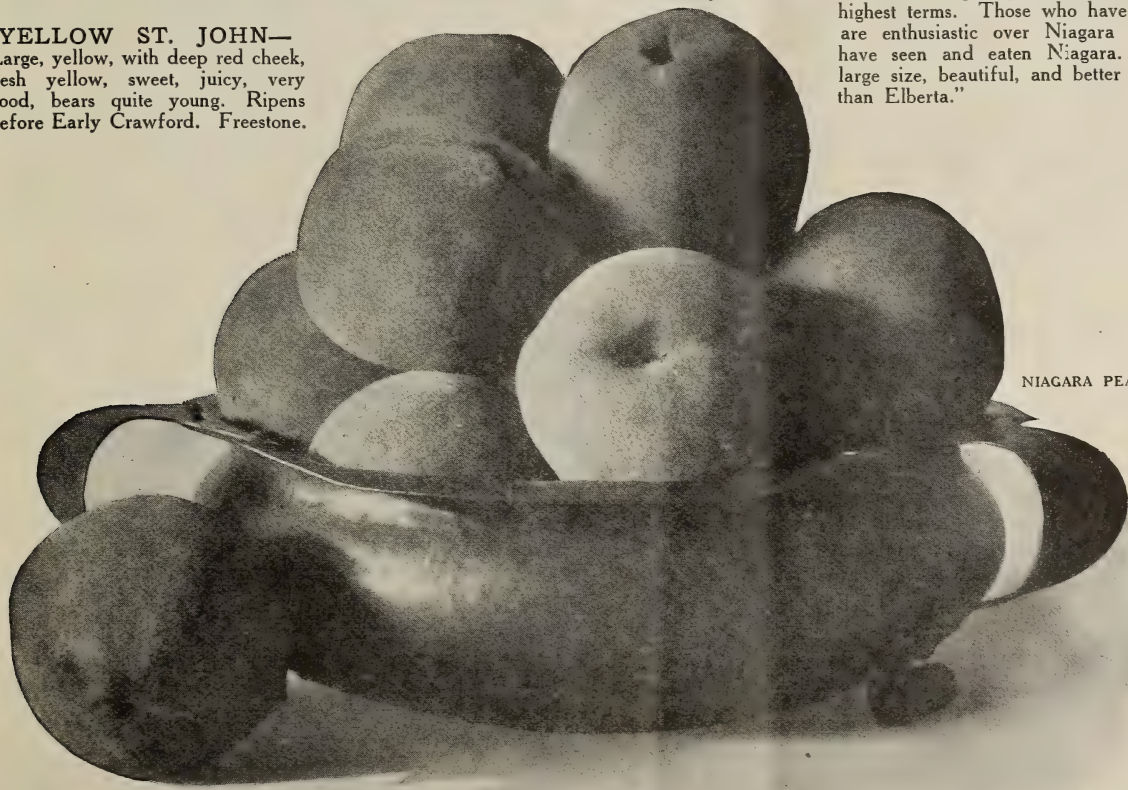

MOUNTAIN ROSE—Large, red, white flesh, juicy and excellent. August. Freestone.

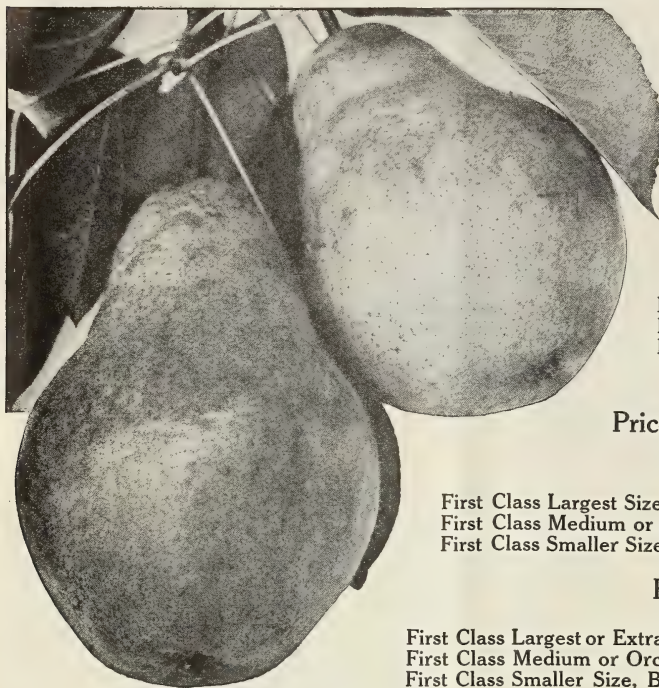

ORDER OF RIPENING

- | | |
|-------------------|--------------------|
| 1 Sneed | 10 Old Mixon |
| 2 Early Rivers | 11 Crosby |
| 3 Carman | 12 Fitzgerald |
| 4 Yellow St. John | 13 Elberta |
| 5 Greensboro | 14 Hill's Chili |
| 6 Champion | 15 Crawford's Late |
| 7 Mt. Rose | 16 Golden Drop |
| 8 Early Crawford | 17 Chair's Choice |
| 9 Niagara | 18 Beer's Smock |

NIAGARA PEACH—A new variety, but fully tested by extensive orchard planting near Rochester, N. Y. It may be called the new Elberta, since in appearance it is like Elberta. It has the desirable qualities of Elberta with none of its defects. One defect of Elberta is that the foliage is liable to be affected with fungus that causes, leaf curl, while the foliage of Niagara peach cannot be surpassed in healthfulness and for its ability to resist fungus, being almost of the character of leather. Another reason is that while Elberta is of good fair quality, Niagara is superb in quality. Niagara ripens one week earlier than Elberta, ripening here September 1st. It is free from yellows and leaf curl. Prof. Van Deman says: "I have heard the Niagara peach spoken of in the highest terms. Those who have fruited it are enthusiastic over Niagara peach. I have seen and eaten Niagara. It is of large size, beautiful, and better in quality than Elberta."

NIAGARA PEACH

PEAR TREES

BOTH STANDARD AND DWARF

Prices of Standard Pears—General Varieties (except Bartlett and Worden-Seckel.)

	Each	10	100
First Class Largest or Extra Size,	\$0.30	\$2.75	\$25.00
First Class Medium or Orchard Size,	.25	2.25	20.00
First Class Smaller Size, Branched,	.20	1.75	12.50

Price of Bartlett and Worden-Seckel Standard Pears.

	Each	10	100
First Class Largest Size,	\$0.35	\$3.25	\$30.00
First Class Medium or Orchard Size,	.30	2.75	25.00
First Class Smaller Size, Branched,	.25	2.25	17.50

Prices of Dwarf Pear Trees.

	Each	10	100
First Class Largest or Extra Size,	\$0.25	\$1.75	\$14.00
First Class Medium or Orchard Size,	.20	1.50	11.00
First Class Smaller Size, Branched	.15	1.25	7.50

CLAPP'S FAVORITE PEAR—Standard and Dwarf—A profitable early variety; a prolific and early bearer. Season August, earlier than Bartlett. This is without doubt the most productive pear in cultivation. Brings big money at Green's Fruit Farm.

BARTLETT PEAR—Standard and Dwarf—It is the most popular pear, both for home use and market, that the world has ever known. It is buttery and melting, with a rich flavor. The tree is vigorous in growth. Many people remove half of the fruit in August, ripening this for market, thus relieving the tree of its strain and securing larger fruit from that which remains on the tree. Season September.

DUCHESS PEAR (Duchess d'Angouleme)—Standard and Dwarf—The Duchess dwarf pear trees give uniformly large crops of pears of marvelous size and good quality. What the Bartlett pear is as a standard, the Duchess pear is as a dwarf. The fruit is prized as a dessert fruit or for cooking.

KIEFFER HARDY WINTER PEAR (Standard and Dwarf)—The Kieffer has many admirers on account of its great productiveness each year, splendid growth and selling well in market. For the home market it will be a favorite for canning.

ANJOU (Beurre d'Anjou)—Standard and Dwarf—A large, handsome pear, buttery and melting, with sprightly vinous flavor; keeps into mid-winter. Tree a vigorous grower and a good bearer. Many claim that this is the greatest of late autumn pears. It keeps until January with special care. It is beautiful in shape and color.

WILDER EARLY PEAR—Standard and Dwarf—Pleases all because beautiful, red and yellow. It is a good grower and produces a crop early. Season early August.

SHELDON PEAR—Standard Only—A better autumn pear does not exist. First quality; large, round, russet and red, melting, rich and delicious. As a standard should be more largely planted. Season October and November.

GANS EARLY—Dwarf—A fine new early pear, ripening just after Tyson and a week to ten days before Bartlett. It is large and handsome, pyriform in shape, color yellow, with slightly brownish cheek. Flesh fine grained, melting, very juicy, sweet, sugary, quality very good. It shows no tendency to rot at the core. Tree a vigorous grower.

LAWRENCE—Late Winter Pear—Standard and Dwarf—Size medium to large, obovate, golden yellow, flesh melting, with a pleasant aromatic flavor. Tree a moderate grower and abundant bearer.

FLEMISH BEAUTY—Standard and Dwarf—A large, beautiful, melting, sweet pear. Tree very hardy, vigorous and fruitful. Flesh is tender, juicy and highly flavored. Season September and October.

SECKEL—Standard and Dwarf—Small size, yellowish, russet with a red cheek. Flesh whitish, buttery, very juicy and melting with a peculiarly rich, spicy flavor and aroma. Sept and Oct.

WORDEN-SECKEL PEAR—Standard and Dwarf—This beautiful and delicious pear attracted wide attention when introduced recently. In quality it is rated very high. In size it is much larger than Seckel. It is shaped like Bartlett but is not so large as Bartlett.

Additional Varieties

Clairegaw Dwf., Louise Bonne Std. and Dwf., Tyson Dwf., Howell Std. and Dwf.

CHERRY TREES

Prices of Cherry Trees

First Class Largest Size . . .	\$0.25	\$2.00	\$19.00
First Class Medium or Orchard Size20	1.50	14.00
First Class Smaller Size, Branched15	1.25	11.00

✓ EARLY RICHMOND

Duke and Morello Cherries (Sour)

EARLY RICHMOND CHERRY—This is a hardy cherry, fruiting on young trees soon after planting. The fruit does not rot upon the trees, and can be left without picking longer than most varieties. Early Richmond is a great favorite throughout the West and Northwest, where only hardy varieties succeed. Fruit medium size, round, dark red flesh, melting, juicy and acid, unsurpassed for hardiness and cooking purposes, a great bearer. June.

DYEHOUSE—Unquestionably the earliest cherry, fine quality, its early bearing remarkable as its great hardiness. For tarts, pies, and especially for canning, it has no superior among cherries. June.

ENGLISH MORELLO—English Morello is late and much liked by canning establishments. It is one of the few varieties that seems to succeed well with neglect.

MAY DUKE CHERRY—The color of this cherry gradually changes from a bright red to nearly black when fully ripe. Season very early.

MONTMORENCY—King of the hardy cherries. Large, bright, shining red, acid, late, valuable. Hardy and productive.

OLIVET—Large, very shining deep red; tender, rich and vinous, with mild subacid flavor. June and July.

Hearts and Bigarreus (Sweet)

GREEN'S BLACK TARTARIAN CHERRY—Fruit of the largest size; flesh dark, half tender, with a peculiar liver-like consistency. July.

PLUM TREES

Prices of Plum Trees

	Each	10	100
First Class Largest Size . . .	\$0.30	\$2.50	\$22.50
First Class Medium or Orchard Size25	2.00	17.50
First Class Smaller Size, Branched20	1.50	12.50

ABUNDANCE JAPAN PLUM—Amber, turning to a rich, bright cherry color, with a decided white bloom, and highly perfumed. Flesh light yellow, exceedingly juicy and tender.

THE BURBANK PLUM—Fruit large, oval. Skin reddish purple. Flesh yellow, juicy and good. Its beauty and value as a market variety are unsurpassed.

YORK STATE is one of the largest, best in quality and most productive of all prunes or plums. Size large; color dark blue, covered with purple blush; flesh yellow and delicious; freestone, ripening the last week in September at Rochester, N. Y.

GERMAN PRUNE—Medium oval, purple or blue, juicy, rich, fine. Tree vigorous and very productive. One of the best. September.

THE THANKSGIVING HARDY PLUM—A sweet rich quality variety introduced by us some years ago. Tree an extra strong grower. Fruit remarkable for its keeping quality, and tree for its hardiness. The fruit has been kept in good condition a month or more after picking. Season latest of all plums and prunes.

YELLOW SPANISH—Large, pale yellow, with a bright red cheek in the sun. End of June.

SCHMIDT'S BIGARRÉAU—Fruit large, deep mahogany color; flesh dark, tender, juicy, fine flavor. First of July.

NAPOLEON BIGARREAU (Royal Ann)—Skin pale yellow richly dotted with deep red. June.

GOVERNOR WOOD—A rich and delicious large red cherry that hangs well on the tree. Very popular. June.

BING CHERRY—Very large size, almost black in color when ripe, of fine quality, very productive, a good shipper.

LAMBEKT CHERRY (New)—One of the largest of all sweet cherries. Color dark red; flesh soft; an excellent shipper.

WINDSOR CHERRY—Fruit large, roundish, oblong, very firm, juicy, mottled red.

Additional Varieties

✓ Centennial, Late Duke, Louis Phillippe, Ostheim, Rockport.

MONARCH—Very large, roundish oval; dark purple blue, freestone, of excellent quality. An abundant bearer. Season Oct.

IMPERIAL GAGE—Large, pale green, juicy, sweet, rich and excellent. Aug.

SHROPSHIRE DAMSON PLUM—A small, blue plum produced in thick clusters or groups. Highly prized for canning and preserving.

YELLOW EGG—Very large, egg shaped, productive; excellent for cooking. Aug.

NIAGARA PLUM—Red, large size. Bears enormous crops. No one will be disappointed in planting the Niagara plum.

SHIPPER'S PRIDE—Large, dark purple, very showy, fine, juicy and sweet. Sept.

LOMBARD PLUM—Hardy and productive. A handsome reddish plum, flesh yellow, juicy and pleasant. Aug.

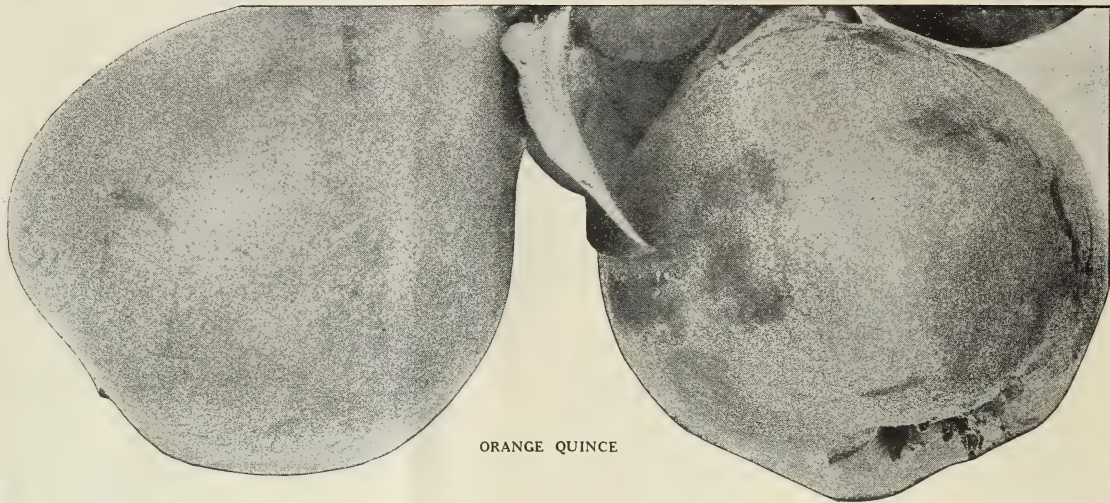

BRADSHAW PLUM—A very large and fine early plum, dark violet red, juicy and good.

RED JUNE JAPAN PLUM—Fruit medium to large, deep vermilion-red, with handsome bloom, very showy.

SATSUMA—Large, globular, purple and red; flesh juicy, firm, dark red or blood color; pit very small; hardy and vigorous. Aug.

Additional Varieties

Moore's Arctic, Coe's Golden Drop, Gueii, Climax, Reine Claude, Grand Duke, Wickson, Apple, Ogon, Peter's Yellow Gage, Pond's Seedling, Purple Egg.

ORANGE QUINCE

QUINCE TREES

Prices of Quince Trees

	Each	10	100
First Class, 4 to 5 ft. . . .	\$0.35	\$3.00	\$25.00
First Class, 3 to 4 ft.30	2.50	20.00
First Class, 2 to 3 ft.25	2.00	15.00

ORANGE QUINCE. (Sometimes Called Apple Quince)—Large, roundish, bright golden yellow, cooks tender and is of very excellent flavor. Valuable for preserves or flavoring. Very productive. The most popular and extensively cultivated of the old varieties. Sept. and Oct.

CHAMPION—Fruit very large, fair and handsome. Bears abundantly while young. Flesh cooks as tender as an apple. Most excellent for making preserves, jellies, marmalades, etc. It yields fruit on very young trees soon after planting. The fruit keeps well and ships well. Season late.

Additional Varieties

Bourgeat, Meech's Prolific, Rea's Mammoth.

NUT TREES

AMERICAN SWEET CHESTNUT—By far the most popular variety of chestnut. Price 3 to 4 ft. 30c. each, \$2.50 per 10.

HAZELNUT (Filbert)—This is the sort usually sold in the fruit stores. Price 30c. each, \$2.50 per 10.

PECANS—This nut is very productive and delicious. Price 2 to 3 ft. 35c. each, 1 to 2 ft. 25c. each.

BLACK WALNUT—The common well-known Black Walnut, the wood of which is most beautiful and valuable. Price 5 to 6 ft. 50c. each, 4 to 5 ft. 35c. each.

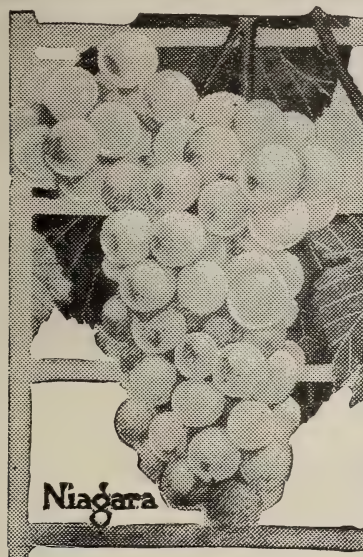

BUTTERNUT—A fine native tree producing a large longish nut, which is prized for its sweet, oily, nutritious kernel. Price 3 to 4 ft. 35c. each, \$3.00 per 10. 2 to 3 ft. 30c. each, 2.50 per 10.

JAPAN WALNUT (Sieboldi)—Perfectly hardy, rapid grower, handsome form, immense leaves. Bears young and abundantly. Price 4 to 5 ft. 50c. each.

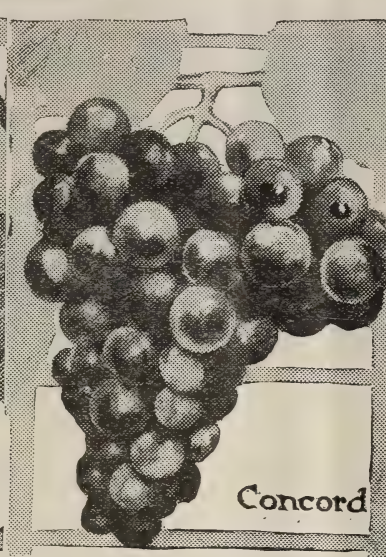

ENGLISH OR PERSIAN WALNUTS—One of the largest, most delicious, meaty and desirable nuts. Price 2 to 3 ft. 50c. each.

NUT GROWING AS A BUSINESS

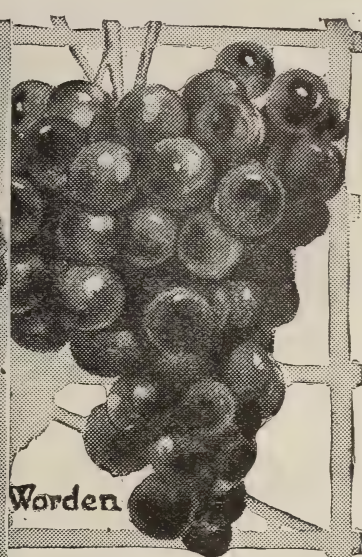

Herbert W. Collingwood, editor Rural New Yorker, says: "Nut growing is a business which I am sure is to be a great feature of future farming. We are to get a good share of muscle making food from trees. Prices of meat are soaring, and thousands of people find each year that they can keep up their strength and do more and better work when they substitute nuts for meat in part or entirely. I am not trying to argue for vegetarianism but merely stating facts. The demand for nuts is sure to increase. If you plant a nut grove today, before it comes in bearing you will find demand ahead of supply. A few men realize what is coming and are interesting themselves in improved varieties of nuts, such as hickories, chestnuts or pecans."

Niagara

Concord

Worden

GRAPE VINES

NIAGARA (White)—Bunch very large and handsome, often shouldered, compact; berries large, round; skin thin, tough, does not crack and carries well; has not much pulp when fully ripe, melting sweet. Price of 2-year old vines, 10c. each, 80c. per 10, \$5 per 100, \$35 per 1000.

CONCORD—Bunch large, shouldered, compact, berries large, covered with a rich bloom; skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet pulp, tender; vine a strong grower, very hardy, healthy, and productive. Price of 2-year old vines, 10c. each, 80c. per 10, \$5 per 100, \$35 per 1000.

WORDEN—For home use I know of no grape of greater value. It is an enormous cropper. Worden is ripe and gone before Concord comes in. It is an early black grape. Price of strong 2-year old vines, 10c. each, 80c. per 10, \$5 per 100, \$35 per 1000.

DIAMOND (White)—Very prolific in bearing; cluster large and handsome. Price, strong 2-year vines, 15c. each, \$1.25 per 10, \$10.00 per 100.

CARMAN—Berries small in size, dark purplish black. Price, strong 2-year vines, 15c. each, \$1.25 per 10, \$7.50 per 100, \$60 per 1000.

CAMPBELL'S EARLY (Black)—Bunch and berry large, glossy black, early and a great bearer. Price, strong 2-year vines, 25c. each, \$2.25 per 10, \$20.00 per 100.

DELAWARE (Red)—Bunches small, compact; berries rather small; exceedingly sweet, spicy and delicious flavor. Price, strong 2-year vines, 15c. each, \$1.25 per 10, \$7.50 per 100, \$60 per 1000.

BRIGHTON (Red)—Large compact bunches, delicate skin, tender. Price, strong 2-year vines, 15c. each, \$1.25 per 10, \$7.50 per 100, \$60 per 1000.

LUCILE—An early red market grape, hardy, healthy and desirable. Price for 2-year old vine, 30c. each.

MOORE'S EARLY—Clusters of medium size; berries large, black. Price 2 years, 15c. each, \$1.25 per 10, \$7 per 100.

Green's New Grape Vine Bargain 10 Vines For 98c.

Our offer is 2 Brighton Early Red; 2 Concord, black; 1 Moore's Early, black; 1 Carman, black; 2 Niagara, white; 2 Worden, black. All 2-year old, first class grape vines for 98 cents.
(Sold Elsewhere for \$2.00)

CURRENT BUSHES

✓ RED CROSS is the sweetest currant ever produced. In making currant jellies or in preparing currants in other ways, remember the Red Cross currant requires only half the sugar that any other currant requires, owing to its natural sweetness and fine flavor. Price, strong 2-year old No. 1 bushes, 75c. per 10; \$6.00 per 100; \$50.00 per 1000.

✓ FAY'S PROLIFIC—Of large size, fine flavor, and claimed to be twice as prolific as Cherry; red in color. Price, strong 2-year old No. 1 bushes, 60c. per 10; \$5.00 per 100; \$45.00 per 1000.

✓ WILDER—One of the strongest growers and most productive. Bunch and berries very large, bright, attractive red color, even when dead ripe; hangs on the bushes in fine condition for handling as late as any known variety. Price, strong 2-year old No. 1 bushes, 60c. per 10; \$5.00 per 100; \$40.00 per 1000.

✓ DIPLOMA (Received World's Fair Diploma)—The best and largest of all currants. Very vigorous grower and most productive red currant. Season medium late.—C. A. Green.

Prof. H. E. Van Deman says: Diploma currant is of attractive appearance, both clusters and berries being very large. The quality is good. It is a currant of unusual promise.

Price, extra large 2-year old bushes, 15c. each; \$1.25 per 10; \$10.00 per 100.

✓ WHITE GRAPE CURRANT—This is the best of all white currants and it should be planted in every garden. Price, strong 2-year old No. 1 bushes, 60c. per 10, \$5.00 per 100, \$45.00 per 1000.

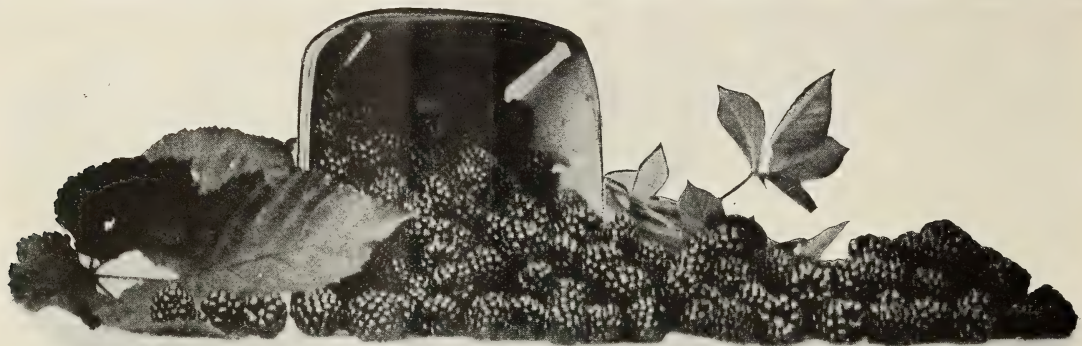

BLACK CHAMPION—Excellent quality and flavor; a strong grower and very productive. Price, strong 2-year old No. 1 bushes, 75c. per 10, \$6.00 per 100, \$50.00 per 1000.

GOOSEBERRY BUSHES

✓ DOWNING GOOSEBERRY is the largest and best of all native American varieties. The value of Downing lies in its large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew. Downing is free from spines. Downing is enormously productive. Price, 2-year old bushes, first class, 12c. each, \$1.00 per 10, \$8.00 per 100.

INDUSTRY—Large red. Price 20c. each, \$1.75 per 10.

✓ RED JACKET—An American seedling of large size. Price, 2 year, 15c. each, \$1.00 per 10, \$8.00 per 100.

BLACKBERRY BUSHES

ELDORADO BLACKBERRY—The hardiest and sweetest blackberry at Green's Fruit Farm. Berries are very large, jet black, borne in large clusters, and ripen well together; are very sweet, melting, pleasing to the taste, have no hard core, and keep eight to ten days. Price 60 cents per 10, \$3 per 100, \$20 per 1000.

SNYDER BLACKBERRY—This popular, hardy and profitable blackberry is known everywhere and planted largely. Season early; oblong oval in form; quality good. Price 50c. per 10, \$2 per 100, \$15 per 1000.

RASPBERRY BUSHES

CUMBERLAND—Fruit very large, firm, keeps and ships as well as any of the blacks. Mid-season. Price 50 cents per 10, \$2 per 100, \$15 per 1000.

RUBY RED RASPBERRY—A large and productive variety which we have been testing for several years. The fruit stands up well in the box and is very showy. Price 50c. per 10, \$2 per 100.

COLUMBIAN—A strong grower, unexcelled for productiveness and desirable for canning. At Green's Fruit Farm nine rows, 150 feet long, yielded 66 bushels. Price 50c. per 10, \$2 per 100, \$15 per 1000. Color reddish purple.

THE CUTHBERT RED RASPBERRY—Large, Productive, Attractive—It yields bountifully of large and beautiful bright red berries, which are easily picked and command good prices. Price 50c. per 10, \$1.50 per 100, \$12 per 1000.

PLUM FARMER—Black—It ripens early and quickly. The fruit is of enormously large size, often measuring an inch in diameter. It sells at the highest price. Price 50c. per 10, \$2 per 100, \$15 per 1000.

KANSAS BLACK RASPBERRY—Is of the largest size, vigorous, healthy and productive. Fruit is large and excellent in quality. We have fruited it several seasons and find it an excellent variety. Price 50c. per 10, \$2 per 100, \$12 per 1000.

HERBERT—This is a new red raspberry which originated in Canada and is very highly recommended by the Government Experiment Station at Ottawa on account of its unusual hardness. Price 60c. per 10, \$4 per 100.

SYRACUSE RED—This is the largest and most productive of all red raspberries. It is very hardy, never requiring protection at Rochester, N. Y. It is also a vigorous grower and continues to fruit during six weeks of summer, from July first to the middle of August. Price 20c. for each strong well rooted plant, or \$1.50 for 10 plants, \$10 per 100.

STRAWBERRY PLANTS

CORSICAN, biggest berry on earth—This is C. A. Green's favorite strawberry. First, it is the biggest berry; second, it is the brightest and best in color; third it is a great yielder and producer; fourth, and most important of all the foliage is exceedingly vigorous and leathery, resisting fungus, drought, weed, and even neglect of cultivation. Price of Corsican layer plants, 25 cents per 10, 75c. per 100, \$6 per 1000.

SENATOR DUNLAP—The berries are very large, roundish, conical, regular with slight neck. In color they are glossy crimson, with the meat firm and solid, deep crimson throughout, and good in quality. Price of Senator Dunlap layer plants, 25c. per 10, 75c. per 100, \$6 per 1000.

BRANDYWINE—A very late and firm berry, a good shipper, good canner; a good all around strawberry. Price of Brandywine layer plants, 25c. per 10, 75c. per 100, \$6 per 1000.

SWEETHEART—A new variety discovered by our superintendent, Mr. E. H. Burson. It is solid in flesh and a long keeper. It is the earliest berry to ripen at Green's Fruit Farm, being earlier than Senator Dunlap. Price 50c. per 10, \$3 per 100.

ADDITIONAL VARIETIES—Green's Pineapple, introduced by us and one of the best. Price 25c. per 10, 75c. per 100, \$6 per 1000.

If strawberries are to be sent by mail add 20c. per 100 for postage.

GARDEN ROOTS

PALMETTO ASPARAGUS—This is a large growing variety particularly delicious in quality. When once planted this will continue to produce abundantly for life. Price, strong 2-year plants, 25c. per 10, 75c. per 100, \$5 per 1000.

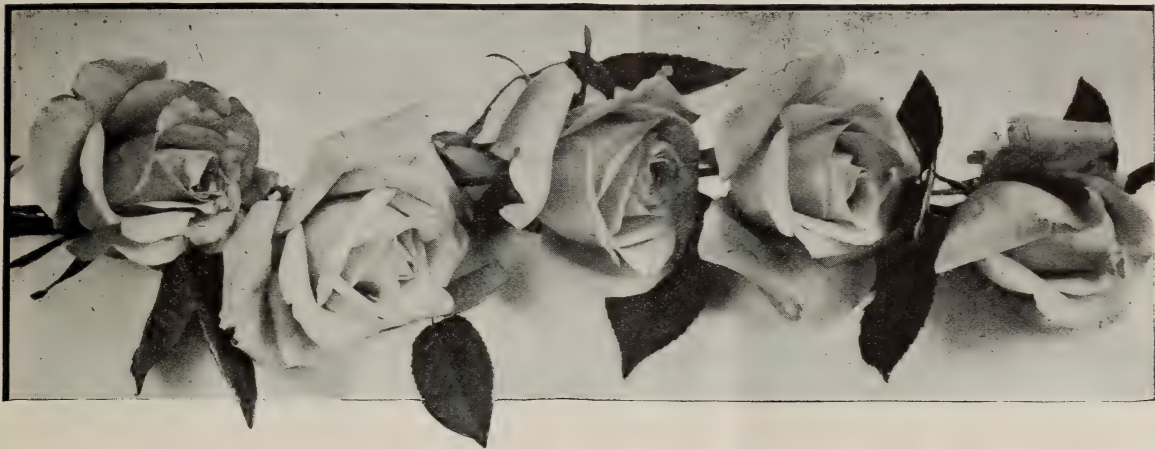

CONOVER'S COLOSSAL—This good old variety is known everywhere; is of large size, rapid in growth and of good quality. Price, large 2-year plants, 25c. per 10, 75c. per 100, \$5 per 1000.

GENESEE ASPARAGUS (new)—A large, tender and delicious variety. A rapid grower and desirable in every respect. Price 30c. per 10, \$1 per 100, \$6 per 1000.

HORSE RADISH—Will stand a great deal of hardship and persist in soil year after year. Price, strong sets, 25c. per 10, \$1.00 per 100, \$7.50 per 1000.

LINNAEUS RHUBARB—Those who eat pieplant pie and sauce freely are greatly benefited. Do you realize what excellent sauce can be made of rhubarb? This is the best variety. Price of strong pieplant roots, lower than ever before, 5c. each, 50c. per 10, \$3.00 per 100, \$20.00 per 1000.

SAGE—(Holt's Mammoth)—Price, large bushy plants that have been grown in the nursery row, 10c. each, 80c. per 10, \$5 per 100.

ROSES

MAGNA CHARTA—A general favorite, prized on account of its strong upright growth, and bright, healthy foliage, as well as for its magnificent bloom. The color is beautiful pink, suffused with carmine. Price 25c. each, \$2.25 per 10.

GENERAL JACQUEMINOT—Deep, brilliant shaded crimson, with large petals, globular with high center. Price 25c. each, \$2.25 per 10.

CRIMSON BABY RAMBLER—Can be planted outdoors or put in pots indoors. A dwarf (bush) form of Crimson Rambler, and furthermore, everblooming. Has the same bright crimson color as the climbing Crimson Rambler, and blooms in clusters of 20 to 40 flowers at one time on plants of fair size. Price, strong No. 1 bushes, 35c. each, \$3 per 10.

FRAU KARL DRUSCHKI—(Snow Queen)—The finest white rose. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom. Price, strong No. 1 bushes, 35c. each, \$3 per 10. Strong bushes by mail, 25c. each, \$2.25 per 10.

COQUETTE DES ALPS—White, slightly shaded with carmine; strong grower and a great favorite. Price, 25c. each, \$2.25 per 10.

ANNE DE DIESBACH—Carmine, a beautiful shade; very large. A superior garden sort. Price, 25c. each, \$2.25 per 10.

PAUL NEYRON—Flower of immense size, one of the largest roses grown and one of the finest; color deep shining rose, very fresh and pretty. Price, 25c. each, \$2.25 per 10.

CRIMSON RAMBLER—A climbing rose of unusual attractions. Very hardy. Vigorous in growth, having grown 8 to 10 feet in a season. Produces a profusion of blossoms, having been known to produce 300 blossoms on one shoot. The Crimson Rambler is especially adapted for covering trellises. Its cluster form, its brilliancy, the abundance of its bloom, and the great length of time the flowers remain on the plant without falling or losing their brilliancy, are qualities which make this rose an assured favorite. Price of bushes, 2 years, 25c. each, \$2.25 per 10.

WHITE RAMBLER—Resembles Crimson Rambler in foliage and habit; flowers pure white. Price 25c. each, \$2.25 per 10.

DOROTHY PERKINS—(Climber)—A most valuable Pink Rambler Rose. Flowers are very double, of large size, unusually two inches across and borne in loose clusters. The petals are very prettily rolled back and crinkled; the buds are remarkably handsome, being pointed in shape and of just right size for the button-hole. Price 25c. each, \$2.25 per 10.

LIVE-FOREVER ROSE—A bug proof, hardy Rose. If you have tried growing roses and failed, try once more, for we have discovered a rose which lives long and is proof against insects and diseases. Price 15c. each, \$1.25 per 10, \$12.00 per 100 for large 2 year bushes.

YELLOW RAMBLER—Flowers of medium size, in immense clusters, very sweet-scented; a clear decided yellow. Price 25c. each, \$2.25 per 10.

VEILCHENBLAU (Blue Rambler)—This is a new Rambler rose, producing flowers of a pale violet blue color. It is very hardy and distinctively a novelty. Price, 35c. each, \$3 per 10.

8 Rose Bushes For 98 Cents

Red, White and Pink.

2 Magna Charta, 1 Crimson Rambler, 2 Dorothy Perkins,
2 Live-Forever, 1 Madam Plantier.

All large 2-year-old bushes which will bloom the coming summer.

Special bargain price, 98c. Sold elsewhere for \$2.00.

FLOWERING VINES

VIRGINIA CREEPER (American Ivy)—Fine for trellises where a rapid growing vine is needed. Price, 25c. each.

TRUMPET FLOWER—A grand old favorite, hardy climbing plant, with large trumpet shaped, scarlet blossoms in August. Price 25c. each, strong 2-year vines.

AMPELOPSIS VEITCHII (Boston Ivy)—This is one of the most beautiful ivies and the latest acquisition. It is a rapid grower and clings tenaciously to brick or stone walls, requiring no artificial fastening or training. Price, strong vines, 35c. each.

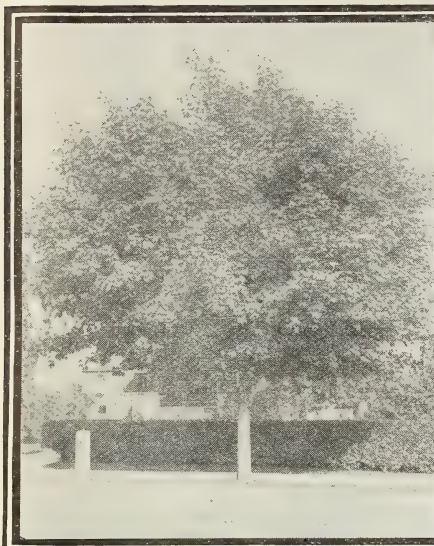

HALL'S JAPAN HONEYSUCKLE—An almost evergreen honeysuckle of the greatest value, being hardy and of strong growth. The flowers are fragrant, of a pure white changing to yellow, resembling a Cape Jasmine in odor and produced in profusion from May to December. Price, strong plants, 25c. each.

JACKMANNI CLEMATIS—Flowers, when fully expanded, are from 4 to 6 inches in diameter; intense violet purple, with a rich velvety appearance. Price of strong plants, 35c. each.

CLEMATIS PANICULATA—This beautiful Clematis fills a long felt want for a rapid growing, hardy, easy-to-transplant flowering vine. It commences to grow very early in the spring and blooms profusely in the late fall. Flowers pure white star-shaped, about one inch in diameter, borne in large clusters; will last several days as cut flowers, retaining their freshness and fragrance. Price, 25c. each.

HENRYI CLEMATIS—A vigorous grower and free bloomer, producing its large, pure white flowers constantly during the summer and early autumn. Price 35c. each.

CHINESE WISTARIA—One of the most elegant and rapid growing of all climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a season. Has long pendulous clusters of pale blue flowers in May, June and in autumn. Price, 25c. each.

NORWAY MAPLE

LOMBARDY POPLAR

WHITE FLOWERING HORSE CHESTNUT

ORNAMENTAL TREES

NORWAY MAPLE—This is one of the hardiest ornamental shade trees, and one of the most beautiful. A noble variety both in growth and form. Very popular for shade and ornament. This maple with its broad, showy leaves has many admirers.

Green's Ornamental Tree Collection

- 1 Horse Chestnut
- 1 Hardy Catalpa
- 1 American White Elm
- 1 Golden Willow
- 1 Lombardy Poplar
- 1 Carolina Poplar

All selected specimens.
Trees 6 to 8 feet high.
Ready for immediate effect.

This is C. A. Green's selection of beautiful ornamental trees, which will add to the beauty and value of your home grounds. Value elsewhere \$3.00. Green's price \$1.50

CAROLINA POPLAR

CALIFORNIA PRIVET HEDGE

CATALPA

ORNAMENTAL TREES (continued)

CAROLINA POPLAR—It is one of the most rapid growers among shade trees, frequently growing 8 feet during one season and thus making fine avenues in a few years. It is very desirable at the roadside, in parks, along rivers and streams for the protection of the banks. It has advantages over other shade trees because it will grow in any kind of soil, swampy or muck, light or heavy. It is easily started and gives shade in a short time. Very useful for planting as a screen to shut out unattractive buildings.

	Price Each	Per 10	Per 100
4—5 ft.	\$.08	\$.70	\$5.50
5—6 ft.10	.85	7.50
6—8 ft.15	1.25	10.00
8—10 ft.20	1.60	14.00

AMERICAN ELM—The most admired of all American trees. It is very attractive in any suitable location, is entirely hardy and easily transplanted. There are more elm trees planted along our streets and highways than any other one variety. This on account of its dense green foliage, which spreads out from overhead, covering a suitable space of ground in proportion to the size of the tree, which makes it the finest shade tree in the world.

	Price Each	Per 10	Per 100
6—8 ft.35	\$3.00	\$25.00
8—10 ft.50	4.00	
10—12 ft.75	6.50	

HARDY CATALPA—(Speciosa)—One of the most showy flowering trees. It makes a beautiful object on the lawn and should be in everyone's dooryard.

It is a very rapid grower, and found to be very desirable for railroad ties, etc. Prof. Hussman of the Missouri State Hort. Society describes it as follows: "It looks like a production of the tropical zone, yet it seems to be entirely hardy, with its immense leaves, velvety brown when they first appear, and changing into dark green; followed by immense panicles of flowers, containing sometimes between three and four hundred buds and blossoms, contrasting finely with its dark massive foliage."

	Price Each	Per 10
4—5 ft.	\$.20	\$1.75
5—6 ft.30	2.50
6—8 ft.40	3.25
8—10 ft.50	4.00

GOLDEN WILLOW—This is a very handsome tree, graceful and very beautiful. When young it grows straight and compact, but after it is five or six years old the branches begin to droop. It is conspicuous at all seasons but particularly so in winter on account of its bright yellow bark. By all means plant it.

	Price Each	Per 10
2—3 ft.	\$.15	\$1.25
4—5 ft.25	2.00

EVERGREENS AND HEDGES

NORWAY SPRUCE—This is the most desirable evergreen for all purposes and by far the most popular. It is extremely hardy and will grow on all kinds of soil. For a hedge higher than 4 or 5 ft., it is by all means the most desirable tree to use. These hedges can be grown to any height even up to 20 or 30 ft. An orchard or fruit garden enclosed with an evergreen hedge of this description will in cold states and cold seasons yield double the crop of sound fruit that it would if left exposed to the bleak and cutting blasts of winter.

Price: 18 in. to 2 ft. 20c. each, \$1.75 per 10, \$15 per 100.

Hedging plants (transplanted), 12 to 18 in., \$1.25 per 10, \$10.00 per 100.

AMERICAN ARBOR VITAE (White Cedar)—This is one of the most desirable evergreens for hedging purposes because it can be trimmed to any size or shape desired. The foliage is

feathery and spraylike, becoming denser after each pruning with the shears.

Price: Extra Large, 3 to 4 ft. 30c. each, \$2.50 per 10.

Selected, 2 to 3 ft., 25c. each, \$2.25 per 10, \$15.00 per 100.

CALIFORNIA PRIVET FOR HEDGING—The best of all hardy hedge plants. The Privet hedge is easily kept at any height desired. In many cases the hedge is not allowed to grow over 2 feet high; in other cases the hedge may grow as high as 4 to 6 feet. It has no thorns, does not sucker from the roots and is not objectionable in any way. This hedge holds its foliage nearly all winter. It is almost an evergreen.

Price of California Privet, heavy 2-year, well branched, \$3.50 per 100, \$30 per 1000.

Extra Heavy, 10c. each, 80c. per 10, \$5 per 100.

SPIRAEA VAN HOUTTEI

MOCK ORANGE (SYRINGA)

DEUTZIA CRENATA ROSEA

ORNAMENTAL SHRUBS

SPIRAEA VAN HOUTTEI—The grandest of all Spiraeas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. The best of the spiraeas. 25c. each, \$2 per 10.

FORSYTHIA VIRIDISSIMA—(Golden Bell)—A fine, hardy shrub. It comes into bloom early, and flowers are of a bright orange-yellow. Price, large 25c. each, \$2 per 10.

DWARF BARBERRY—(B. Thunbergii)—Very attractive, neat and dense in growth, yet graceful because of its drooping branches. The yellow flowers are followed by scarlet fruits borne in dense profusion on the long stems and clinging through most of the winter; the leaves color to scarlet and gold in autumn. Price, 25c. each, for hedge \$9 per 50.

MOCK ORANGE—(Syringa)—Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower. Price, 25c. each, \$2 per 10.

ANCHUSA—(The Heavenly-Blue Flower)—This is one of the very choicest hardy border plants. It is very hardy, growing from 4 to 6 feet with good culture. It is fully covered with pure blue flowers an inch in diameter, which are of a surpassing beauty and loveliness. It flowers in May, lasting about two months in bloom. Price, 35c. each, \$3 per 10, by mail or express.

PAEONIES—(The Queen of Spring Flowers)—The Paeony can be planted in the spring or fall. It rivals the rose in beauty and fragrance. Price and Colors of Paeonies: red, pink, and pink, and white, best varieties, strong roots (that will flower the coming summer), 25c. each, \$2 per 10.

DEUTZIA CRENATA ROSEA—(Double Flowered Deutzia)—This is a variety that has very full double flowers which are white tinged with rose. The flowers are produced in great profusion in racemes from 4 to 5 in. long. Price 25c. each, \$2 per 10.

GOLDEN GLOW—This is a beautiful yellow blooming perennial plant and like phlox it stands out doors all winter. The foliage, which dies back every fall, springs up vigorously in the spring and grows to the height of 5 or 6 feet. If you do not wish the plants to grow so high, nip them off when they are a foot or two high, and they will branch out lower and be more desirable for certain localities. Price of strong plants, 5c. each, 40c. per 10.

HARDY HYDRANGEA—(Paniculata Grandiflora)—We urge our friends to plant the Hydrangea. It is hardy, enduring the severest winters out doors without protection. It is easily transplanted, not one in a thousand dying; it never fails to blossom the first year planted; no matter how small the plant, it immediately buds out in great profusion of flowers, many of them as large as the head of a full grown child. When the specimens first open they are greenish white, later they turn to a pure white, and still later to a delicate pink. Price 25c. each, extra size, 35c. each.

Surprise Collection in Shrubs

13 Flowering and Foliage Shrubs and Vines

2 Althea, 2 Spiraea, 2 Deutzias, 1 Weigela, 1 Purple Berberry, 1 Golden Elder, 1 Snowball, 1 Yucca, 1 Golden Willow, 1 Clematis Paniculata.

13 Extra Strong Specimens ready for blooming 1st season.

Bargain Price for Spring 1913 is \$1.60

Express Co. _____ Railroad _____

OUR GUARANTEE.—We exercise care to have our stock genuine and reliable, and hereby guarantee that if all, substantially all or any part of stock delivered, does not prove true to name as ordered we will replace it free of charge, or refund the money paid for it, that being the measure of damages for a breach of the contract.

Trees and Plants by Mail

(POST PAID—Safe Delivery Guaranteed)

IN The Pacific Coast States and in every distant state where trees can be grown will be found orchards and gardens planted with trees from our nurseries that were received by mail.

A Satisfactory Feature of the trees and plants by mail is that the order can be filled with safety at any time during winter or spring. Must you plant in January or February send your order and specify this when sending it, and the order will be filled accordingly (except perhaps strawberries, which go later.) **Send 10c for sample apple tree and you will want more.**

APPLES LIKE THESE CAN BE GROWN ON
ONE YEAR OLD APPLE TREES

APPLES

American Blush, Winter Banana, Baldwin, Blenheim Pippin, Green's Baldwin, Jonathan, King, McIntosh Red, Northern Spy, Pound Sweet, R. I. Greening, Wismer's Dessert. Descriptions of these found in preceding pages. Prices—12c each, \$1.10 per 10, \$10 per 100.

PEACHES

Niagara. Prices—15c each, \$1.25 per 10, \$12.50 per 100.

RHUBARB

Prices—10c each, 90c per 10.

HORSERADISH (Sets)

Prices—15c per 10, 60c per 100.

Our Premium for Early Orders

The New Sweetheart Strawberry

THE peculiar characteristics of this strawberry are as follows: It is of beautiful, bright carmine red, as handsome in color as the most beautiful rose. It is solid in flesh and a long keeper. A tray of these berries was sent to my city office, thirteen miles from the Fruit Farm, and presented to me second day after the berries were picked. One week after picking these berries, kept in an ordinary room in my house, were in prime condition without the slightest indication of molding or decaying. It is the best keeping berry I have seen and must become a good shipper on account of its firmness of flesh and ability to stand up under hard usage. The flesh inside the berry is reddish nearly to the center, which I consider a valuable characteristic. The plants are remarkably vigorous and productive. It is the earliest berry to ripen at Green's Fruit Farm, being earlier than Senator Dunlap, which is another valuable characteristic, as it is the earliest berries that bring the highest prices in the market. It is of high quality, not sweet but of a sprightliness of flavor that is enticing.

Professor H. E. Van Deman says: "When I was at Green's Fruit Farm near Rochester, N. Y., over two years ago, I happened to be fortunate enough to see the new strawberry that Mr. Burson had originated and was growing there. It appeared to me to be one of the very best in vigor and productiveness of plant and the berries were well shaped, of good size and high quality. Of all the old and new varieties that I know this is surely one of the best and is well worthy of extensive trial to say the least."

PREMIUM No. 1

With all orders amounting to \$5.00 to \$10.00, full payment of cash with order received not later than March 15, 1913, we will give free

5 Plants of the Sweetheart Strawberry (C. A. Green's New Valuable Variety) and **C. A. Green's Book on Fruit Growing.**

PREMIUM No. 2

With all orders amounting to \$10.00 or more, full amount of cash with order received not later than March 15, 1913, we will give free

10 Plants of the Sweetheart Strawberry (C. A. Green's New Valuable Variety) and **C. A. Green's Book on Fruit Growing.**
